Avoid Risks of Repacking Du Bay Disinfectants

The Du Bay Disinfectants are offered in a sufficient variety of sizes to meet the individual requirements of all classes of users, both large and small. The repacking of Du Bay Disinfectants from the larger containers into paper bags, cardboard boxes, and similar packages for resale is not authorized by the Bayer-Semesan Company because of the serious risk of contaminating the Du Bay Disinfectants with other substances; of poor results from lack of tested directions; of the hazard to users through not having a poison warning and antidote; and of the legal penalties involved in failing to comply with existing poison laws.

Sales Helps for Dealers' Use

Complete sales helps, including booklets, window displays, window streamers, seed treating charts, newspaper electros, motion pictures, motion picture slides, catalog copy, and sales letters, are available to dealers who stock the Du Bay products.
